WISE

ABSTRACT. AT TODAY'S CONFERENCE VENUES, RESEARCHERS ARE OFTEN PUZZLED BY COMPLEX FOOD AND BEVERAGE DISTRIBUTION PROBLEMS. WHETHER IT IS LOAD-BALANCING IN MULTIPLE COFFEE LINES, FAILURE TO RETRIEVE RELEVANT TYPES OF DISHES, OR SEVERE DEAD-LOCKS OVER CIRCULAR-TYPE TABLES, THESE ISSUES ARE RECURRENT, REGARDLESS OF THE INTELLECTUAL POTENTIAL OF CONFERENCE ATTENDEES. IN THIS POSTCARD, WE REPORT SUCCESSFUL OVERCOMING OF THESE PROBLEMS, BY USING AD-HOC APPLICATIONS OF SEVERAL GREEDY APPROACHES.
