

# Tools for keywords extraction

Tomáš Kramár

# tagthe.net

- Z textu aj z HTML
- Pomenované entity
- Len pre angličtinu
- Demo verzia <http://tagthe.net/>
- API <http://tagthe.net/fordevelopers>

For the moment the service can be used free of charge. We do not limit the number of requests to it, however we ask you to send us a short notice whenever you plan to build an application that uses tagthe.net heavily.

# Alchemy API

- Z textu aj z HTML
- Pomenované entity, kľúčové slová (tagy), analýza sentimentov, vzťahov, kategorizácia, readability, ...
- Len pre angličtinu
- Demo <http://www.alchemyapi.com/api/demo.html>
- API <http://www.alchemyapi.com/api/>

Receive 1,000 API calls a day upon registration, and approved academic users may receive up to 30,000 API calls a day after contacting us. Higher limits available to educational institutions and non-profit groups.

# YQL

- Z textu
- Len angličtina
- <http://developer.yahoo.com/yql/console/#h=desc%20search.termextract>
- Usage Limits: Per application limit (identified by your Access Key): 100,000 calls per day

# Delicious

- Len pre URL
- Pre ľubovoľný jazyk
- Super kvalita (tagy od ľudí)
- Pozor na pokrytie
- API <http://delicious.com/developers> (hľadajte posts/suggest)

Please wait AT LEAST ONE SECOND between queries, or you are likely to get automatically throttled

# Jockey

- Pre zdrojové kódy
  - Demo
  - API
- 
- Úplne zadarmo

# Roll your own

Good luck

# Metallurgy

- Pre text, pre URL, aj dávkové spracovanie
  - Pre angličtinu, slovenčinu, nemčinu, ...
  - Rýchle
- 
- Pracujeme na tom
