2016/2017

The screenshot shows a web-based SQL learning interface. On the left, there is a sidebar with a 'Learn' section and 'Instructions'. The main area displays a SQL editor with the query `SELECT * FROM celebs;`. To the right, the 'Query Results' section shows a table with columns 'id', 'name', and 'age', containing four rows of data. Below the results is the 'Database Schema' for the 'celebs' table, showing columns 'id' (INTEGER), 'name' (TEXT), and 'age' (INTEGER). A 'Run' button is located at the bottom of the SQL editor. The interface includes a navigation bar at the bottom with 'Back', 'Next', and 'Get Help' buttons, and a page indicator '1/10'. Green circles and lines are overlaid on the image, highlighting the SQL query, the 'Run' button, and the corresponding data in the 'Query Results' table.

lecademy < Learn SQL

Learn

Instructions

1. Let's begin by running a query.

`SELECT * FROM celebs;`

You will see all of your SQL commands in the editor. By pressing the Run button at the bottom of the editor, you can execute the query.

Report a Bug

...neznamená rovnaké **vykonanie** úlohy.

**Načo by to bolo
dobré?**

Možný scenár:

Študent sa hanbí priznať, že má problém s učivom.

Kam mierime?

Mohli by sme identifikovať

charakteristiku študenta...

...aby sme zlepšili výučbu vďaka lepšej
informovanosti učiteľa.
