Yellowstone National Park

#26486 Bison refers to the North American species as opposed to Bovids in other parts of the world, which are called buffalo. Bison are related to domestic cattle, sheep and goats. Bison stand 5 1/2 feet high at shoulders. Adult males (bulls) weigh 1,200-2,000 pounds while females (cows) weigh 700-900 pounds. Photographers - Erwin & Peggy Bauer
