

# Academia SeBeana

(academic year 2017/2018, autumn semester)

In vino veritas, in cerevisia scientia

## MISSION AND OBJECTIVES

As malt, hops, and water are the main ingredients of every beer, so relentless pursuit of Beer-Driven Research (BDR), dissemination of knowledge and beernovation are the main objectives of Academia SeBeana, which was established in the academic year 2013/14.

We continue to be at the frontier of the state-of-the-brew research, covering a wide range of research areas such as Beertificial intelligence (e.g., processing of potentially infinite beer streams or beer recommendation), Beer-influenced language processing (e.g., analysis of beer-induced sentiment) and Beer Savouring Experience (as a part of a broader beer-human interfaces research). However, Academia SeBeana also pays much attention to scholarship, naturally connected to the requirements of beerdustry and research.

Overall, our mission is to raise a new generation of young beertelligence able to pursue the Holy Grail of beer science – finding the creative and productive peak: the SeBe peak.

## STUDY PROGRAMMES

In the academic year 2017/2018 we open study programmes in all three levels of study in the field of Beergineering:

- undergraduate programmes awarding the degree of Bachelor of Beergineering (BBeng.) in: Beerformatics, Brewing technologies, Drink security
- graduate programmes awarding the degree of Master of Beergineering (MBeng.) in: Beertelligent Systems, Brewing technologies
- doctoral programmes awarding the degree of Cerevisiae Doctor (CeD.) in: Applied beerformatics, Bottling systems

The details on graduate profiles can be found [here](#) (in Graduate Profile section).

## DOCTORAL RESEARCH TOPICS

Academia SeBeana invites all beer enthusiasts with previous master degree in beergeneering or related field to apply for doctoral study in the study programme Bottling systems.

*(turn the page)*

## ENROLMENT

In order to enrol for the studies in the first year or the following years, the students have to prove that they fulfil the preconditions of successfully completing the college studies or that they meet the objectives of the previous study year by providing a glass **bottle**<sup>1</sup> of **beer** as a symbol of their study potential and achievements.

Previously enrolled students (see this [list](#)) are obliged to bring their [index](#), which shows all their study achievements.

## SEMESTER SCHEDULE

*November 10<sup>th</sup> 2017*

19:00	Academia SeBeana 2017/18 Semester Opening
19:15	Student Enrolment
19:30	Report from World BDR Congress 2017
20:00	Midterm Exams (Quiz)
21:00	Scientific Board Meeting (not open to public)
Beer'o'clock	Semester evaluation

Bratislava, November 8<sup>th</sup> 2017

Prof. MBeng. Marián Šimko, CeD.,  
Prof. MBeng. Michal Barla, CeD.,  
Prof. MBeng. Jakub Šimko, CeD.,  
Prof. MBeng. Róbert Móro, CeD.

---

<sup>1</sup> A *can*, though filled with delicious beer, is not a *bottle*.
