User Modeling (UM)

Natural Language Processing (NLP)

We use ...

... in order to

- analyze,
- characterize and
- predict ...

... behavior of users,
communities and society...

... (mostly) on the web.

Doctoral staff

- Mária Bieliková
- Michal Kompan
- Marián Šimko
- Ivan Srba
- Jakub Ševcech

Doctoral students

- Peter Gašpar
- Martin Labaj
- Martin Mocko
- Branislav Pecher
- Miroslav Rác
- Elena Štefancová
- Andrej Vítek

... and many master and bachelor students

Keynotes, tutorials and discussions

Explaining and discussing group topics and methodologies, such as:

- ML workflow
- RecSys classification
- NLP/UM techniques
- Feature engineering
- Model evaluation
- Bias and privacy

Question-answering

Solving problems you run into in your bachelor/master theses during all stages:

- Summarizing related work
- Defining research questions and hypotheses
- Proposing solution
- Proposing experiment methodology
- Evaluating results

Interesting resources

Short information about:

- Research papers
- Books
- Blogs
- Datasets
- Courses
- Technologies

Communication: PeWe Google Group + Slack team (invitation will be send shortly)

In God we trust,
all others must bring data

—W. Edwards Deming
